

## The JCI Global Community

JCI is a worldwide community of young active citizens aged 18 to 40 who share the belief that in order to create positive change, we must take collective action to improve ourselves, and the world around us. Engaging in activities ranging from sustainable development to international projects, we take responsibility for our communities while improving ourselves through participation, leadership and action.

## Active Citizens

As global citizens, we all have rights and responsibilities. We have shared local, national and global interests. Active citizenship for us means to work together towards our common goals. This spirit links JCI members: the sense of social responsibility and the initiative to take action to benefit society.

## Be Better

JCI members constantly seek ways to live JCI's slogan — Be Better. JCI members think critically about existing problems and find sustainable solutions for a better future. We not only believe that improvement is possible in our communities and in ourselves, we believe it is our responsibility.

## JCI in Europe

In Europe, JCI has 37 National Organizations with nearly 30,000 members. Europe for JCI goes beyond the European Union, and includes countries from Ukraine to Turkey.

“European parliamentarians strongly encourage the participation of young people and youth organizations in the formulation of policies at local, national and international levels through an ongoing structured dialogue.”

# JCI EUROPEAN KNOW-HOW TRANSFER

October 9–13, 2016 in Brussels, Belgium  
[www.jci.cc/eukht](http://www.jci.cc/eukht)

## Program

The JCI European Know-How Transfer is an exchange program between young active citizens and European decision makers. The program allows participants to take part in the European decision-making process by direct communication with Members of the European Parliament. At the same time Parliamentarians learn from socially responsible young leaders and entrepreneurs about challenges their constituency is facing. Thus, the project strengthens personal contacts and increases understanding between politicians, the business community and active citizens.

**Day 1:** Internal workshops on how to make most of your visit to the heart of European politics

**Day 2:** Meeting with representatives of the European Commission to discuss current European issues like youth unemployment

**Day 3–5:** Participants are matched with one Member of the European Parliament who they accompany to committee meetings, press conferences, lobby meetings and other events

For more information visit: [www.jci.cc/eukht](http://www.jci.cc/eukht)

## Goals

The main goal of this program is to build and strengthen contacts and exchange knowledge between Members of the European Parliament and young active citizens. Learning more about each other's challenges, exchanging positions and requests regarding current critical issues and finding ways for cooperation on local and national level.

- Exchange experiences, common challenges, positions and requests
- Create mutual understanding
- Promote the European idea
- Reduce prejudices and misunderstandings
- Tighten the network between Members of the European Parliament and JCI members
- Explore ways of future cooperation

The international program further strengthens the European identity and supports cross-country initiatives.

In 2016, the 12<sup>th</sup> JCI European Know-How Transfer takes place. It is conducted in many European countries on a local and national level.
